REPORTING.

MANAGE YOUR TIME WISELY!

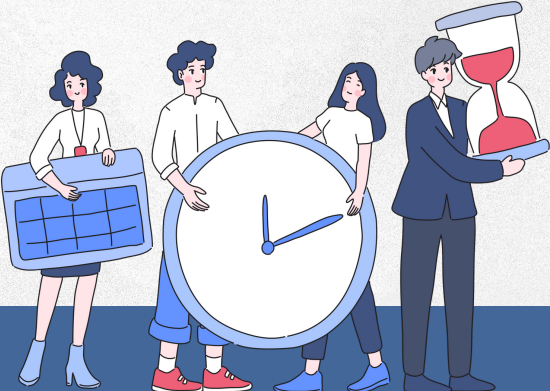

Easily Plan Your Production Resource Capacities (Sewing, Pattern Making, etc.) Based on Production Day or Production Minute.

Get acquainted with the CAPACITY PLANNING service of ENFOTEK ERP and Software Solutions! With CAPACITY PLANNING, which is fully integrated with EDS processes, ensure real-time monitoring of your production capacities both domestically and abroad!

WITH ENFOTEK CAPACITY PLANNING:

- Increase in model and variant diversity,
- Increase in order file quantity and annual order intake,
- Popularity of sustainable fashion,
- Ensure real-time tracking of delivery performance.

Production capacities for production resources (such as Dye House, Cutting, etc.) can be planned in terms of weight or quantity of process steps (such as fabric supply or cutting).
